1. Looked at the space problem and think that I have found a possible solution to it. (See Memorandum for the Record.)

25X1A9a

2. telephoned to say that he thought the day had now come to replace all of the communicators whom he had in Support positions with Support personnel and that he was ready to move full speed ahead in this direction. He intends to assign as Chief of the American Activities Branch and wants the Administration Career Service to nominate someone to fill the grade GS-14 position which he will vacate. I have passed this on to .

5. Reviewed Matt Baird's Fitness Report with him. He was obviously pleased with it; however, he said that he wanted to talk further with me about his failure to establish himself as the Director of Training for the Agency as opposed to the Director of the Office of Training. He recognizes that my remarks in this connection are accurate but feels, I think, that I should give him more guidance and help in accomplishing this objective. He raised the question again, which reminds me that I should check with General Cabell to see whether or not he has ever looked at it.

6. Matt also raised the question of counter audiosurveillance training in the Office of Security about which he has not been consulted. He felt that he should have been inasmuch as his people are doing some of this type of training. I agreed, and told him that I would see that he was cut in on this and did whatever was appropriate.
